

Big business interests should not be allowed to pursue their own political agendas in this manner. I certainly have no problem with every American voting his/her belief but this actions by a large corporation with deliberate intentions to unduly influence voters with such trash needs to be stopped. Believe me, if the shoe were on the other foot the Republican Party would move heaven and earth to stop such an unfair attack!

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. We need for the FCC to become more particular about the ownership of large Media Companies who take such actions to try to influence the future of this nation. The FCC needs to be firm, take a stand, yes and do their job. Thank you.
